Marks and Standards

These Marks and Standards should be read in conjunction with the Programme Requirements (p.) and the Book of Modules (<https://ucc-ie-public.courseleaf.com/modules/>).

Fitness to Practise

All students on programmes subject to Fitness to Practise in UCC will be required to comply with the Fitness to Practise Policy (<https://www.ucc.ie/en/academicgov/aago-policies/fitnesstopractise/>) and meet the relevant Fitness to Practise standards, in order to progress to the next year of his/her/their programme. Click here for a list of programmes subject to the Fitness to Practise Policy (<https://www.ucc.ie/en/academicgov/aago-policies/fitnesstopractise/programmes/>).

Marks and Credits

Students are required to take modules to the value of 75 credits. Total Marks for year: 1500.

First Year - Pass and Progression Criteria

To pass first year and progress to second year, students must have satisfied the Fitness to Practise requirements and must achieve:

1. An aggregate mark of 50% across all modules, and
2. A pass mark in modules to the value of 75 credits.

Examination Boards

- Provisional marks for Semester 1 examinations are released in January/February of each year. These marks are subject to approval at the University Examination Board.
- Marks for all modules taken in Semester 1 and 2, including those wholly assessed by Continuous Assessment, will be presented to the University Examination Board at the end of Semester 2.

Supplemental Examinations and Assessment

- Students who fail to achieve the progression standard for the year at the Summer Examination Board must complete Supplemental Examinations and/or Continuous Assessment for those specific module(s), where there is provision to do so.
- Please refer to the Book of Modules (<https://ucc-ie-public.courseleaf.com/modules/>) for requirements governing the Supplemental Examination and Assessment for individual modules. **Note:** For some modules there is no Supplemental Examination and Assessment.
- The marks achieved in the Supplemental Examinations and/or Continuous Assessment of a repeat module are considered at the Autumn Examination Board.

- The actual mark achieved by the candidate in the Supplemental or Repeat Year Examination will be recorded on the student record (Academic Transcript).
- The maximum mark that will be taken into account for aggregation and progression purposes is a pass level, unless the student has been granted a cap waiver or deferral by the University Mitigation Committee, or a University Examination Board, or has been approved to defer the previous attempt by the University Mitigation Committee.
- At the Autumn Examination Board, marks from all passed modules approved at the Summer Examination Board are carried forward and are combined with the marks achieved in Supplemental Examinations and/or Assessments. The pass and progression criteria are applied to the aggregate mark achieved.

Note: The mark achieved at the last examination/assessment attempt is the mark that is included in the calculation of the aggregate mark for pass and progression purposes.

Exemptions

All passed modules carry an exemption, which is limited to a period of five academic years (or two in the case of Computer Science modules) subsequent to the award of the exemption.

Repeat Year Examinations

Students retain module exemptions, if any, and must repeat all failed/absent modules, **including those modules where the failing mark previously achieved was greater than the level of compensation (≥ 45%) but who failed to achieve the progression standard for the year (see above).** The pass and progression criteria are then applied to the combination of full marks achieved in modules passed at the first attempt, plus capped marks achieved in modules in the Repeat Year Examinations.

Note: For students selecting different modules not previously taken, there are no restrictions on the marks awarded for those modules at the first attempt in a repeat year. The selection of different modules by the student means that the student foregoes any previous marks achieved in the original modules (including previously passed modules).

Two Year Rule

Students must pass/progress within two academic years of the date of first registration for a year, otherwise they cannot continue in the programme. Students of Medicine are allowed to repeat a year after failing a re-sit examination only twice during their studies in University College Cork. Students of Medicine are not allowed two repeat years within the first two years of the programme. Therefore, students must complete the first two years of study within a maximum of three years (that is a maximum of one repeat year is allowed in the first two years). Furthermore, students must complete their studies within six years of registering for the First Medical Year. Exceptions to this rule may be granted by the College of Medicine and Health only for very serious reasons.

Terms and Definitions

Programme Description

- The programme description is outlined in the Programme Requirements tab (p.).

Module Descriptions/Assessment

- Module descriptions, including the pass standard for a module, special requirements to pass a module, and assessment

elements and their weightings, are contained in the Book of Modules (<https://ucc-ie-public.courseleaf.com/modules/>).

Marks and Credits

- A maximum of 100 marks may be awarded for every five credits of a programme.
- Some modules are assessed on a Pass/Fail basis only, i.e. marks are not awarded.

Pass and Progression

- Progression is defined as the permission granted to a student to register in the subsequent academic year for the next set of modules within his/her/their programme of study.
- Compensation is defined as the process by which a student, who fails to satisfy some of the regulations for credit in a specific module, is nevertheless recommended for credit to be awarded on the grounds that the failure is offset by his/her/their performance in the other modules on his/her/their programme of study.
