

# DIPLOMA IN ENVIRONMENTAL AND GEOLOGICAL SCIENCES

## Overview

**Status:** Active

**National Framework Of Qualifications (NFQ) Level:** 7

**NFQ Award Class:** Special Purpose Award

**Duration Full Time:** 1 Academic Year(s)

**Total Credits:** 60

**Delivery Method:** In-Person

## Connected Curriculum:

- Civic and Community Engagement
- Employability
- Global Reach
- Inter-and Transdisciplinary
- Research Based Teaching
- Sustainability

## Sustainable Development Goals (SDGs):

- Affordable and Clean Energy
- Clean Water and Sanitation
- Quality Education

## Graduate Attributes:

- Creator, evaluator and communicator of knowledge
- Digitally Fluent
- Effective global citizen
- Independent and creative thinker
- Socially Responsible

## Work-Integrated Learning (Including Placement):

No

programme of study is subject to final agreement by the relevant UCC academic units and the student's home institution.

## Workload Guideline

It is strongly recommended that students do not take any more than 40 credits in any semester. Students are therefore advised to choose their modules so that the workload is evenly spread throughout the year.

## Programme Requirements

For information about modules, module choice, options and credit weightings, please go to Programme Requirements (p.      ).

This Diploma programme is available to students of UCC's international partner institutions with whom UCC has a bilateral agreement under Statute 263 of the National University of Ireland. Having studied for at least two years at a partner university, students will study for one year at University College Cork, taking the programme to a value of 60 credits as outlined below.

To be considered for the award of a University Diploma in Environmental and Geological Sciences, a student must have satisfactorily attended undergraduate modules to the value of **60** credits as prescribed by the Head of the School of Biological, Earth and Environmental Sciences. Students may choose Second, Third, and where permitted, Fourth year undergraduate modules (subject to timetabling and other constraints). Where a module has prerequisites (as specified in the module description), a student must satisfy this prerequisite by demonstrating, to the satisfaction of the relevant academic unit that a similar module has been passed in the partner institution.
