

MA (TRANSLATION STUDIES)

Programme Learning Outcomes

Programme Learning Outcomes for MA in Translation Studies (NFQ Level 9, Major Award)

On successful completion of this programme, students should be able to:

- Describe, elucidate and contextualise key theories, models and approaches in Translation Studies relevant to contemporary research and practice in the field;
- Evaluate, select and apply state-of-the-art translation tools, terminologies and technologies as appropriate to research and practice in the field;
- Exhibit and deploy basic professional skills, knowledge and attitudes to translation, in line with national and international occupational and ethical standards;
- Analyse and produce a range of different text, discourse and translation types, utilising the intercultural communication skills developed and honed as part of the programme;
- Identify, design and apply appropriate methodologies for research in Translation Studies;
- Effectively manage translation project work and present a portfolio of extensive practical translation work involving one or more L1/L2 pairs, demonstrating different translation functions;
- Deploy relevant transferable skills (communication skills, presentation skills, intercultural competence, networking, teamworking etc);
- Utilise appropriate generic research skills.
