Programme Requirements

For information about modules, module choice, options and credit weightings, please go to Programme Requirements (p. 1).

Programme Requirements

Code	Title	Credits
Students take **90** credits as follows:		
Core Modules		
AT6011	Design Research: Cultures and Context	5
AT6012	Design Research: Technology Transformations	5
AT6013	Design Research Studio: Investigation and Formation	20
AT6014	Design Research Project	30
AT6015	Exhibition Design and Implementation	15
AT6016	Documentation and Dissemination of Design and Design Processes	15
Total Credits		**90**

Examinations

Full details and regulations governing Examinations for each programme will be contained in the *Marks and Standards Book* and for each module in the *Book of Modules*.

Programme Learning Outcomes

Programme Learning Outcomes for MArch (NFQ Level 9, Major Award)

On successful completion of this programme, students should be able to:

- Analyse the context for an architectural project and select the most appropriate factors, whether they be occupant studies, functional requirements, socio-cultural, historical, landscape and/or economic issues on which to base an architectural response;
- Select and rigorously analyse appropriate technological precedents to inform the development of a technological framework for the major design project;
- Synthesise architectural solutions to identified design problems, with a high level of skill and inventiveness;
- Plan and implement an independent programme of work to generate designs and reports related to those designs;
- Design with respect to regulatory constraints and official guidelines.
