- Creator, evaluator and communicator of knowledge
- Digitally Fluent
- Independent and creative thinker

Work-Integrated Learning (Including Placement):

No

The MRes (Industrial Pharmaceuticals) is a 12-month full time (24 months part-time) research programme based within the School of Pharmacy and/or industry. The programme consists of an extensive research induction programme to develop basic pharma/biopharma process and analytical development skills.

Students undertake a total workload equivalent to **90** credits over the 12-month full-time programme (24-months part-time), the principal element of which is the completion of a major research thesis of approximately 20,000 words. In parallel, students must take and pass taught modules to the value of 20 credits.

Programme Requirements

For information about modules, module choice, options and credit weightings, please go to Programme Requirements (p.).
