

MSC DEGREE IN ARCHITECTURE BY RESEARCH

Overview

The MSc Degree by Research is available in **Architecture**.

A candidate:

1. must pursue an internal postgraduate programme for at least one year from the date of first registration for the programme after obtaining the primary degree;
2. must submit a **major** dissertation based upon the work done during such programme;
3. must pass an examination on the subject matter of the dissertation if the examiners so decide.

It is possible, in particular circumstances, to pursue the MSc Degree by Research by part-time study over a period of at least two years from the date of first registration for the programme.
