

POSTGRADUATE CERTIFICATE IN HUMAN OSTEOARCHAEOLOGY

Programme Learning Outcomes

Programme Learning Outcomes for Postgraduate Certificate in Human Osteoarchaeology (NFQ Level 9, Minor Award)

On successful completion of this programme, students should be able to:

- Apply knowledge and understanding of the history of development of bioarchaeology and its relationship to the broader discipline of archaeology;
- Apply knowledge of human biological variability and its relevance to cultural, historical and archaeological contexts;
- Apply knowledge of a range of bioarchaeological methods which involve the quantification and analysis of age at death, sex, activity patterns, growth and development and pathological conditions identifiable in human remains;
- Record, quantify and analyse bioarchaeological data within an archaeological context, and present the data in different forms.
