

POSTGRADUATE DIPLOMA IN DENTAL PUBLIC HEALTH

Programme Learning Outcomes

Programme Learning Outcomes for Postgraduate Diploma in Dental Public Health (NFQ Level 9, Major Award)

On successful completion of this programme, students should be able to:

- Critically analyse theories and issues related to public health;
- Construct arguments around the social, political and economic factors determining the health of populations;
- Demonstrate competence in the key disciplines and theories underpinning public health including epidemiology, communicable diseases including health care associated infections, biostatistics, social and behavioural sciences;
- Analyse the literature and apply it to public health;
- Critically reflect on their learning and practice and that of their peers;
- Demonstrate logical reasoning in written work and discussion in dental public health;
- Apply enhanced knowledge to the practice of dental public health.
