

POSTGRADUATE DIPLOMA IN HUMAN ANATOMY

Programme Learning Outcomes

Programme Learning Outcomes for Postgraduate Diploma (Human Anatomy) (NFQ Level 9, Major Award)

On successful completion of this programme, students should be able to:

- Demonstrate an understanding of the detailed anatomy of the human body;
- Dissect human cadaveric material up to prosection level standards;
- Demonstrate an understanding of a specific embryological event or sequence of events that leads to the development of a particular body region or system;
- Demonstrate an understanding of structure and a basic understanding of the function of the central nervous system;
- Demonstrate a clear understanding of the theoretical concepts and practical skills behind different radiological imaging techniques;
- Discuss the ethical issues surrounding the use of human material for research and education;
- Critically read and analyse data from scientific papers.
