

POSTGRADUATE DIPLOMA IN MEDICAL IMAGING AND RADIATION SCIENCES

Programme Learning Outcomes

- Possess the academic skills to critically evaluate the evidence underpinning current imaging and radiation therapy treatment practices.
- Demonstrate an ongoing commitment to the professional and caring values which underpin a safe and high-quality clinical service.
- Critically evaluate the findings of the audit and clinical and academic evidence to enhance the organisation and management of patient care in various diagnostic imaging/radiation therapy contexts.
- Critically evaluate original research sources and their contribution to the evidence base of clinical practice.
- Critically evaluate ongoing personal and professional development via the theory and practice of CPD.
- To evidence a self-reflective approach to professional practice decision-making and be responsive to the needs of service users.
