

PHD IN OCCUPATIONAL SCIENCE (NOT ON OFFER IN 2025/26)

Overview

The PhD in Occupational Science is a full-time, thematic PhD programme that runs for 3 years from the date of first registration for the programme. Students complete the equivalent of 90 credits in each 12 month period. The programme is flexible and tailored to the needs of each PhD student but by the end of Year 3, all students will have completed the 60 credits of training requirements in order to progress to completion. 70 credits each year will be allocated for the primary component of the PhD programme, which is the completion of original research leading to the submission of a research thesis equivalent to 210 credits.

Programme Requirements
